

River City
Food Bank

Summary of Food Stamp Outreach for Community Based Organizations:

Distribution of Food Stamp Outreach Material

- Free printed material is available in English and Spanish to raise awareness about the Food Stamp Program and assistance provided by RCFB.

Referrals to River City Food Bank

- Your community based organization can refer people interested in assistance applying for Food Stamps to RCFB. We have a referral form that your clients can fill out and you can fax to us. We will then contact the client directly and walk them through the procedure and advocate on their behalf if necessary.

Community fairs and events

- River City Food Bank can attend your community events to distribute nutritional information and information on food stamps.

Food Stamp Presentations

- River City Food Bank can present to your existing programs and classes about the requirements and procedure for food stamps.

Individual Food Stamp Pre-screening and Application Assistance Sessions

- Your community based organization can host a pre-screening and application session by signing up people who are interested and providing the space for the event. River City Food Bank will come to your site, screen clients for potential eligibility and assist them in completing the food stamp application.

Food Stamp Outreach Training

- RCFB can provide training for your organization's employees about the Food Stamp Program requirements and get you started on your own food stamp pre-screening and application assistance.
